for Our Common Future**

**28 Nov – 30 Nov 2006
Singapore**

**With a special one day colloquium on
Thinking and Acting for Our Children's Future
on 29 Nov 2006**

SEAGA Conference 2006 in Singapore

SEAGA, the Southeast Asian Geography Association, celebrates its 16th year in 2006 as an association of geographers and professionals in related fields like history, the geo and environmental sciences, urban planning and others in academia, education, government and the private sector in the region. The SEAGA Conference 2006 is also the 8th conference that is being organised since the association was established in 1990.

Conference Theme

Sustainability and Southeast Asia is the conference theme in 2006 and we are inviting multidimensional perspectives of sustainability from scholars, policy makers and entrepreneurs as well as researchers and teachers. The aim of the conference is to debate the progress that has been made towards sustainability in the Southeast Asian region.

First Call for Papers

This is a first call for papers on the sub-themes within the larger area of sustainability in Southeast Asia (please refer to our website at <http://www.seaga.co.nr>). Abstracts of papers for both the main conference and the colloquium are to be sent to SEAGA Conference Organising Committee at hsse@nie.edu.sg by 31 May 2006.

Jointly organised by

SEAGA
Southeast Asian Geography Association

Co-hosted by

南洋女子中學校
NANYANG GIRLS' HIGH SCHOOL
